- applicable for all tea packaging machines
- production following accurate tolerances
- flexibility in adapting our customers' needs
- certified production

Made in Germany

**Our forms of supply**

	spool type	D (mm)	d (mm)	d1 (mm)	Lw (mm)	Lg/La (mm)	capacity (kg - Al)
plastic spools	KA 135	135	56	53	43	49	0.75
	K 150	150	56	18	43	49	1.1
	K 150-2	150	56	18	93	100	2.0

D = flange diameter  
d = core diameter  
d1 = bore  
Lw = coiling width  
Lg = total spool width  
La = spool mounting width

Production following the highest environmental and quality standards

Advanced production facilities

# ELISENTAL

*Elisental aluminium wire*

*Lightweight design for all applications*

As one of the leading European manufacturers of aluminium wire, Elisental has specialized in this material for more than 90 years now. Due to its individual material characteristics, aluminium wire has proven for decades as a particularly suitable packaging material for teabags. This finds evidence in the complete satisfaction of our long-time customers.
